

The VAL-CO Family of products provides all your equipment needs.

- Watering Systems
- Feed Bins, Fill Systems
- Feeders
- Nests
- Egg Collection Systems
- Cage Equipment
- Brooders & Heaters
- Evaporative Cooling
- Fans & Other Ventilation
- Whole House Controllers™
 - Flooring
 - Incinerators
 - Alarms

Build a Complete Feeding System

VAL-CO offers a wide variety of components lets you build a feeding system to meet your exact requirements.

Flexible Auger

Flexible Auger for Low Volume, Standard Volume, High Volume, as well as high Moisture (up to 25°) and pellet applications.

Feed Bins

Our bulk storage bins offer you the most efficient way to manage and protect your feed. Built with heavy gauge galvanized steel, VAL-CO Feed Bins are made to last.

Hoppers

Solid heavy gauge steel construction provides durability. Make sure your birds get the feed they need, with the assistance of VAL-CO hoppers.

Sentinel Feed Scale

The Sentinel Feed Scale from VAL-CO is a precision feed weighing system that allows growers to accurately monitor feed consumption and precisely manage their feeding program.

Call your local VAL-CO™ representative or distributor for more information on this and other fine quality products.

FUZE™ ProLine Feeders

Your World Is Now Full of Options.

The FUZE™ ProLine Feeding System from VAL-CO™ offers you the ability to do something you've never been able to do before... build your own feeding system.

Features for all FUZE™ ProLine Feeding Systems:

- Three large feed windows for automatic and even pan flooding with feed
- Grill and pan form a large feed saving lip to minimize feed spillage and waste.
- Accurate feed level adjustments are quickly made from outside the pan
- Deep center feeding “V” bottom nestles down into the litter to promote easier chick access when brooding and overall feed savings
- Increased material thickness added to the pans in the “scratch” areas to improve pan life
- Anti-rake fins reduce billing and feed wastage
- Constructed with engineered polymer resins to resist wear and reduce the harboring of bacteria
- Two-piece top for ease of installation/replacement

The new FUZE ProLine allows you to mix & match interchangeable components to "custom build" the feeder that is right for your particular live production needs.

- Choice of pan diameters: 13 or 14 inch diameters
- Choice of pan depth: shallow depth (2.4 in/61mm) or standard depth (3.0in/76mm)
- Choice of grill configurations: 13 spoke grills for 13 inch pans, and 14 spoke grills for 14 inch pans. Additionally there is a 5 spoke general purpose grill available for the 14 inch pans
- All grills are designed to provide generous spacing for today's breeds of birds; and easy in and out of the pan for brooding chicks
- Grills are designed to virtually eliminate trapping of chicks in the pan

FUZE ProLine

A wide variety of options lets you build a feeding system to meet your exact requirements.

Easy, positive feed depth adjustment

Large flood feed windows

Choice of pan diameters & depth profiles

Deep "V" bottom nestles into the litter during brooding & promotes feed savings

Removable cap for ease of installation & service

Choice of ergonomic, 'bird-friendly' grills

Anti-rake fins

Feed pan & grill form a large feed saver lip

Increased pan thickness in primary wear area

The FUZE ProLine Family

13" low profile / 13 spoke grill

13" standard profile / 13 spoke grill

14" low profile / 14 spoke grill

14" standard profile / 14 spoke grill

14" low profile / 5 spoke general purpose grill

14" standard profile / 5 spoke general purpose grill

People. Products. Solutions.
